## STAT-WIPE Poly Hem Wipes

### DESCRIPTION

Hemmed Polyester Wiper is engineered by first folding it into half and then its three sides are sewn and sealed to prevent the release of particle and fibers. This wiper is user friendly because it is ready to use out-of-the bag without the need for users to fold it. It is also extremely thick and absorbent because the wiper is folded into two as its design.

### FEATURES

- Extremely thick and absorbent
- User friendly and easy to use because it is pre-folded

### APPLICATIONS

- General purpose wiping and polishing of surface areas
- Also used for spill control
